

Model No: **TMT-MS24A1**

Product Name: **LED Strip Light**

Specification: **24 LED;12 LED**

Remark: **Max. 2W**

LED Module

Product type:

Series

Product Readme

Piranha LED light strip is super flux LED mounted on safety circuit board, with a PVC mounting clip which protect PCB circuit also.. 120 degree view angle and homogeneous light that basically for LED Channel Letter, Sign Illumination, Large Area Back Light, Indoor and outdoor advertising billboard.

Specification:

- LED: 3mm Piranha LED, 5mm Piranha LED, flat-headed Piranha LED
 - View Angle: Deg. 90,120,140
 - Luminous Intensity: Red (1000MCD), Yellow (1000MCD), Blue (1500MCD), Green (2500MCD), White (2500MCD)
 - Input Voltage: 12VDC
 - Power: Max.2W
 - Operation Temp:-20°C-65°C
 - Size: 150*12*1.6mm (12 LED); 300*12*1.6mm (24 LED)

*Various color, **Red (620~630nm)**, **Yellow (585~595nm)**, **Green (515~525nm)**, **Blue 465~475nm)**, **White (2700K~6500K)** and **RGB** are available.*

There are all sorts of lighting effects for RGB light strip, such as “Gradual change color”, “sudden change”. Also have “Chase”, “Flowing” lighting effect if many of RGB ball bulbs connect together and control by an out controller.

DC12 voltage, the LED power supply should required.
